#### Council Approves Budget for Curbside Recycling

Council approved a budget in the amount of \$443,173 for the 2011 curbside recycling program, whereby \$403,500 will be collected through a \$37.50 City Recycling Fee for residential properties. This is 7.1% increase from 2010. The primary reason for this increase includes the increased in costs to run the spring and fall cleanup and the increase rate for recycling services for 2011. The Joint Powers Agreement between the City and the County includes a SCORE grant in the amount of \$53,242. This money is used to provide the following programs: continuation of funding for spring and fall community cleanup day events, continuation of single-sort curbside recycling opportunities for residents and the continuation of recycling opportunities within City and owned facilities.

The City Council approved a 5-year agreement with Allied Waste Services for recycling services beginning in 2011. Allied Waste will be a new recycling provider for the City and information will be included in upcoming mailings to residents on the transition.
